## The Woodland Park Story

*Ernie & Edna Yoder*

Woodland Park Inc. was founded by Ernie and Edna Yoder in 1983. Both coming from large traditional Amish families, strong faith and vision provided the platform needed to build a successful product and business. So began a long journey that eventually led to Woodland Park's well-earned position as the highest quality built park model RV in the industry. In 2004, Woodland Park broke ground on a new state of the art production plant. Blending Amish craftsmanship with innovative technology, Woodland Park has only built park model RV's from its genesis, not shifting focus from park models to mobile homes or traditional RV's.
